Name of Applicant (As Indicated in the Application Form)	Goh Jerrill
Testimonial by TP Staff	Jerrill joined Temasek Polytechnic's School of Informatics & IT in 2024. I have had the pleasure of knowing Jerrill over the past year when I taught him two subjects: *Data Visualisation and Analytics*, and *Data Structures and Algorithms*. I was impressed by his keen interest in learning and commitment to the tasks he undertook. Jerrill has performed exceptionally well in his subjects and consistently demonstrated a strong desire to excel. He often goes above and beyond what is expected in his assignments, showcasing not only a solid grasp of technical concepts but also a genuine curiosity to explore topics beyond the syllabus. He is a highly active learner who regularly asks thoughtful questions, reflecting his proactive approach and deep interest in the subject matter. Jerrill approaches every task with care, precision, and a strong work ethic. His meticulous nature and openness to feedback allow him to refine his understanding and deliver high-quality work. Beyond his academic strengths, he is a cheerful and approachable student who contributes positively to the classroom environment. He willingly supports his peers and shows a natural inclination towards collaboration and teamwork. Outside of the classroom, Jerrill has demonstrated outstanding involvement in school activities and leadership roles. He served as an *Orientation Leader* during the TP Freshman Orientation and was appointed *Class Representative*. He also volunteered as a *Student Ambassador* during the TP Open House 2025 and played key roles in events such as the *IIT Campus Care Network Day 2024* (Organiser) and the *ITO Project Showcase with Tampines Secondary School* (Student Speaker). He also contributed as a *Student Facilitator* during a learning journey with Serangoon Secondary School. His active participation in professional development and outreach activities reflect his enthusiasm for learning, leadership, and giving back to the community. I have no reservations in recommending Jerrill for the CSIT scholarship. With his strong analytical mindset, technical aptitude, and dedication to learning, I believe he has the potential to thrive as a scholar and make meaningful contributions in the Infocomm and Technology space in the future.
